Commissioner for Patents
Alexandria, Virginia 22313-1450**REQUEST TO CORRECT ERRORS TO THE FILING RECEIPT**

The sixth word of the title "heat exchanger and process for **devolatilizing** polymer using same" is misspelled.

The sixth word of the title on the filing receipt should read **devolatilizing**.

This error occurred because of clerical error on the part of the application processing division of the Patent and Trademark Office.

As evidence of the correct spelling, attached is a copy of the Declaration filed with the Patent and Trademark Office on January 6, 2004. Also, as an example of the change that needs to be made to the filing receipt, attached is a marked-up copy with the changes noted thereon.

Please change your records and issue a new filing receipt to reflect the correct spelling of **devolatilizing**.

No fee is believed to be due for this petition. Please charge any fee if required, for the filing of this petition to Deposit Account No. 13-0010 (API-1047 (COS-954)).

Respectfully submitted,

Date: March 15, 2004

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
